Choices: Investigating Capital Letters, p. 257

Choices activities are designed to extend and enrich students' understanding of grammar, usage, and mechanics and to take learners beyond traditional classroom instruction. To use the Choices worksheet, have each student pick an activity that interests him or her. In some cases, you may wish to assign an activity to a particular student or group of students. You may also want to request that students get your approval for the activities they choose. Establish guidelines for what constitutes successful completion of an activity. Then, help students plan how they will share their work with the rest of the class.

Choices activities can be scored with a pass-fail grade or treated as bonus-point projects. Those activities that require students to research or create a certain number of items might be graded in a traditional manner.

Literary Model: Poetry, pp. 276–77**EXERCISE A**

1. Dickinson’s poem breaks traditional rules of capitalization. Her poem capitalizes some common nouns, such as *frog* and *bog*.
2. *Answers will vary. A sample response is provided.*

The common nouns that are capitalized in Dickinson’s poem must be important. *Nobody*, for example, seems like a name Dickinson has given herself. The image Dickinson creates is one of changed perspective. This unconventional style shows readers how to look at the world in a new way.

3. *Answers will vary. A sample response is provided.*

Capitalization in Swenson’s poem is similar to capitalization in prose sentences. The poem capitalizes the first letters of sentences, so I tended to pause before each sentence. For me, Swenson’s poem read like a journal or a diary, or some other everyday piece of writing.
